

# ICB-aligned Learning Material

## Professional Certificates

When registering with the Institute of Certified Bookkeepers (ICB), you'll need the correct study material to support your chosen professional certificate. EDGE Education provides the official ICB-aligned learning materials.

**Important:** ICB uses course/subject codes in their factsheets and prospectuses, while EDGE uses title codes in the Online Shop. These codes sometimes differ. Please use the table below to match the ICB professional certificate names and codes with the corresponding EDGE Education titles and codes when making a purchase.

- If you are an ICB self-study student, you must purchase your learning materials directly from the [EDGE Online Shop](#).
- If you are studying through a training centre, your training centre will provide you with the necessary materials.
